

The *Berlingame* Wall?

Image on the right: What we enjoy today.

Image below: What Burlingame may look like with High Speed Rail. The image is based on figures provided by The High Speed Rail Authority. The wall is approximately 21 ft. high--not including sound wall, train height and overhead electrical lines.

What you get with High Speed Rail through Burlingame.

- *A train every 3 minutes at 120 mph close to homes and schools*
- *21' high barrier. Higher if sound wall, height of train and electrical lines are included*
- *Lower property values*
- *Eminent Domain*
- *No stop. No benefit to Burlingame*
